	<u>MONTH</u>	<u>PAGE</u>
<u>AIRPORTS</u>		
Contractor trusses reusable quadrant forms for h/p roofs (New Jersey)	February	24
Airport scrapers get triple push (Massachusetts)	April	63
<u>BRIDGES</u>		
"Octopus" shores up sagging spans (New Hampshire)	January	20
Hammerhead piers rise from plate-girder forms (Hawaii)	February	44
Three concrete buckets ride a single cableway carriage (Washington)	March	56
"Paul Bunyan" sawhorse solves pier builder's problems (Maine)	April	12
Gunning concrete extends life of Allentown Bridge (Pennsylvania)	April	46
Seven men build bridge deck (Alabama)	April	54
How old-timers built a bridge (Oklahoma)	May	27
Paper bridge supports 6-ton truck (Nevada)	May	63
<u>BUILDINGS</u>		
Penitentiary design utilizes no-tie wall construction (Ohio)	January	33
Flat precast modules "fold" into apartments (California)	February	52
5-stage excavation conquers inner space (California)	February	41

	<u>MONTH</u>	<u>PAGE</u>
Nuclear towers require triple wall 12 feet thick (Maryland)	March	10
Six-story derricks to erect chameleon skyscraper (Massachusetts)	March	51
Precasting simplifies winter construction of dormitory (Arizona)	April	20
Ancient East meets modern West (Hawaii)	April	42
Foam coating protects "umbrella" roof (West Virginia)	May	102
<u>MEETINGS</u>		
AED's 51st Convention (January 17-21) Focuses on "Management Now" (Illinois)	February	12
AGC: Labor Department urges AGC to "share the jobs" (Louisiana)	April	27
ARBA: Road builders plan for challenge of change (New York)	April	37
From Singapore, Zurich, Caracas, and California--- Distributors and manufacturers meet for AED conference in Paris (France)	July	41
6th Prestressing Congress draws 1,500 to Prague (Czechoslovakia)	August	37
"World on the move" at Montreal conference (Canada)	November	17
<u>DAMS & FLOOD CONTROL</u>		
Job-built pre-trimmer also installs drains (California)	January	12
Self-raising forms simplify concrete placing at Dworshak Dam (Idaho)	February	8

	<u>MONTH</u>	<u>PAGE</u>
Powerful dredge tames the Kissimmee (Florida)	March	8
Tough tunneling at Tarbela Dam (Pakistan)	March	12
Libby Dam sheds its electric blanket (Montana)	April	56
American earthmovers dig into Beas Dam project (India)	May	50
 <u>GENERAL</u>		
New England bridge builder: Quentin "Red" Lavoie (New Hampshire)	January	32
Construction forecast for 1970 (Washington, D.C.)	January	30
One tractor - shovel feeds stationary batch plant (Pennsylvania)	February	27
Special rigs lay continuous rail for BART (California)	March	46
Florida road builder: John H. Crabtree (Florida)	March	34
When to trade that machine	April	50
C&E at the 50-year mark	May	6
 <u>HIGHWAYS</u>		
Scrapers load and haul shot rock (Tennessee)	January	24
Automated grading machines slash job time by 20 percent (California)	February	34
New excavator loads a yard a second (Vermont)	February	16
Contractor barges 6.3 million tons of sand 28 miles (California)	March	16

	<u>MONTH</u>	<u>PAGE</u>
Sand drains European style (New Hampshire)	March	30
Scrapers swim to load sand (Iowa)	April	22
<u>PAVING</u>		
12-yard batches keep slipform paver hustling (California)	January	8
Slipform spread places slab with continuous reinforcing (Iowa)	April	8
<u>MANAGEMENT</u>		
Computers for contractors: who has the answers?	May	36
Construction management -- a professional approach	May	37
Management education: do your top men need it?	May	41
Kaiser Engineers -- giant of construction and engineering	July	8
<u>MANPOWER</u>		
What the Construction Safety Law means to you	May	46
Black contractor opens door to blacks (New York)	May	47
Minority groups in building-trades unions (Illinois)	May	48
Why construction safety? - third in C&E series (New York)	December	29
<u>MACHINERY</u>		
You may soon place concrete faster	May	54
Lasers light the way to profit	May	57
1971: year of the turbine?	May	64
Rented drills combat rocky right-of-way (New York)	June	28

	<u>MONTH</u>	<u>PAGE</u>
10-drill jumbos gouge powerplant tunnels (Massachusetts)	June	32
Mobile bridge cranes place transit tunnel concrete (Washington)	June	34
Modified slipform paver places continuously-reinforced slab (North Dakota)	June	35
Computer integrates asphalt flow and travel speed (California)	July	11
Systematic plotting plans project (Florida)	July	16
Cranes -- operations and operators -- initiate C&E safety series	July	23
Fast fill and compaction speed highway improvement (New Jersey)	July	27
Access road 'moves,' is key to highway grading through river canyon (Arizona)	August	12
Mammoth loaders and truck trailers build Don Pedro Dam embankment (California)	August	18
Tower crane serves trio of truck cranes (Ohio)	August	36
Trailering safety - second in C&E series	August	44
Winch teams with Pipemobile to lay desert valley siphon (California)	September	11
Contractor improves riding quality with longer ski (Ohio)	September	40
Contractor chases peat with pumps and stone (Wisconsin)	September	47
Floating cranes set box girders (Oregon)	September	50

	<u>MONTH</u>	<u>PAGE</u>
Hydraulic gantry crane sets 65-ton valves (California)	September	51
High-speed haul rigs help minimize earthmoving cost (California)	October	32
Giant earthmovers excavate more than 300 million tons of gravel (Arizona)	October	34
Construction equipment: a manufacturer's forecast	October	39
Concrete delivered by chopper (Massachusetts)	November	10
Loaders, trucks, and scrapers move million yards a month (California)	November	11
Clamshell and hydraulic dredges deepen harbor entrance channel (British Columbia)	November	24
German contractors excavate for 1972 Olympics' rowing-track lake (Germany)	December	20
Kangaroo cranes erect steel for world's tallest buildings (New York)	December	8
Multiple-use machine speeds airport project (Illinois)	December	35
<u>MATERIALS</u>		
Systems building invades the housing field	May	72
Mineral aggregates: a review and a preview	May	74
Quality control: big testing rig for a big dam (West Pakistan)	May	78
Lightweight concrete pumped 286 feet straight up (New York)	June	36
European waterproofing introduced to U.S. market (Pennsylvania)	June	37

	<u>MONTH</u>	<u>PAGE</u>
Huge draglines, jet dryer conquer heavy clay (Ohio)	August	16
Precast concrete frames speed construction of demountable garage (California)	August	24
Unique aggregate plants produce dam filter material (New York)	November	34
Styrofoam insulates highway subgrade in Alaska (Alaska)	December	18
<u>MONEY</u>		
Will contractors rent more equipment?	May	80
The surety bond: what's it to you?	May	82
Bringing contractors and money together	May	83
Oil discovery could mean a construction boom in Alaska (Alaska)	May	84
Banker forecasts fiscal outlook for contractors	July	13
<u>METHODS</u>		
Lakes and seas: jobsites of the future	May	88
Underwater construction: new frontier for the industry (Florida)	May	90
Equipment modified for subsea construction of oil terminal	May	94
Blasting: looking backward and forecasting the future	May	96
Laser keeps trencher on grade automatically (Arizona)	June	8
100-foot precast box girders carry railway over freeway (Arizona)	June	10

	<u>MONTH</u>	<u>PAGE</u>
Braced forms conquer arched piers (Virginia)	June	11
Three cut-and-cover methods for D.C. tunnel (Washington, D.C.)	June	14
Don't disturb the trout (Montana)	June	19
Japanese bore pilot tunnels for world's longest undersea crossing (Japan)	July	18
Curved-girder bridge requires tests, tie-downs (New York)	July	19
Pioneering rocky mountainside (Idaho)	July	20
Custom forms cap coliseum (Virginia)	July	28
Breaker reaches up to knock bridge down (Wisconsin)	July	35
Night paving - New Jersey contractor lights up to resurface at night (New Jersey)	August	10
Atomic power plant job leaves no room for error (Maine)	August	22
Truck cranes raise the roof for new McCormick Place, Chicago (Illinois)	August	28
Canal excavated on Interstate centerline (Louisiana)	August	30
Multiple phasing to widen canyon highway (Oregon)	August	35
Super-scaffolds save lives and dollars (Pennsylvania)	August	41
London Bridge: reconstructed on the Thames, reassembled over Colorado River (England, Arizona)	September	12

	<u>MONTH</u>	<u>PAGE</u>
Alaskan highways muscled through soft muskeg and solid rock (Alaska)	September	24
Joints welded, pipe wrapped next, on coal-carrying line (Arizona)	September	29
Driving tips on piles assure Jefferson Memorial stabilization (Washington, D. C.)	September	31
Bentonite stabilizes trenches for underground parking garage (France)	September	34
Shoring posts solve girder erection problems (New York)	September	41
Floating plants for concrete piles and piers (New Jersey-Pennsylvania)	October	24
Dimples and asbestos lining improve pile cost, performance (Michigan)	October	30
New penstocks through old dam feed pumped-storage system (Arizona)	November	8
Contractor floats bridges into place with pontoon barge (Michigan)	November	18
Heavy reinforcing complicates air terminal construction (Alaska)	November	20
Cranes float and wade to erect bridge steel (Illinois)	November	28
Contractor blasts new highway around old road's traffic (West Virginia)	December	7
Spectacular shoring carries forms for top of 5-level interchange (California)	December	10

	<u>MONTH</u>	<u>PAGE</u>
Tight schedule keeps dam builder on his toes (Washington)	December	12
Japanese contractor solves tunnel problem with hydraulic shield (Japan)	December	17
Precasting in heated corridor (Illinois)	December	32
<u>MAINTENANCE</u>		
Lube trucks slash service time 50% (Pennsylvania)	January	36
How a small contractor avoids big maintenance bills (Massachusetts)	February	48
Station on haul road fuels and lubricates trucks (California)	March	38
Overhead cranes serve 5-bay shop (Connecticut)	April	33
Maintenance trends for the '70s	May	100
Why some contractors don't maintain their own rigs (California)	June	41
Component exchange maintains high availability (Arizona)	July	31
To keep rigs working you need: 'Good men, the right tools, timely records' (Connecticut)	August	33
More than just maintenance (Delaware)	September	44
Versatile shop handles repair and fabrication (Idaho)	October	16
"Dew line" for engines	October	18
Safety in maintenance	October	19
Maintenance at Mica Dam (Canada)	October	20

	<u>MONTH</u>	<u>PAGE</u>
Maintenance men double as innovators (Massachusetts)	October	28
The perfect lube truck	October	36
Testing hydraulic systems	October	40
Hydraulic maintenance: key to major savings	November	12
100 percent machine availability	December	30
